

covet for him

Joyride

The **Lexus RX 350** rolls into town with a 3.5-litre V6 engine, real wood fittings, deluxe leather interiors, maximum cargo capacity of 50 cubic metres and keyless ignition, making the third-generation five-seater SUV a delight to zip around in. An automatic (that means, no clutch), it boasts an intuitive navigation system and no less than 10 airbags, making commuting all the more pleasant. We like.

TV Show

The Bang & Olufsen **BeoVision 7-55** hi-def LCD TV comes with what they call 'motion compensation'. Whatever. What's more, this beauty is perched on a motorised stand so the screen can actually turn to face you – it can even tilt towards you. Coupled with an integrated Blu-ray player and the BeoLab 7-6 anti-distortion stereo loudspeaker, now he'll really fight you over the remote.

Wicked Wheels

The **Bugatti 16 C Galibier** was unveiled during the Bugatti Automobiles SAS centenary celebrations, revealing a supercar equipped with a 16-cylinder, eight-litre flex-fuel engine while its interiors pay homage to yesteryear with an oh-so-masculine blend of wood, metal and leather. A minimalistic cockpit bears two main instruments in the centre and a wearable Reverso Tourbillon clock that comes with a nifty little leather strap. Smart!
