

Indulge in the Rapture of Age-Defying Beauty!

Dr Vanessa Phua

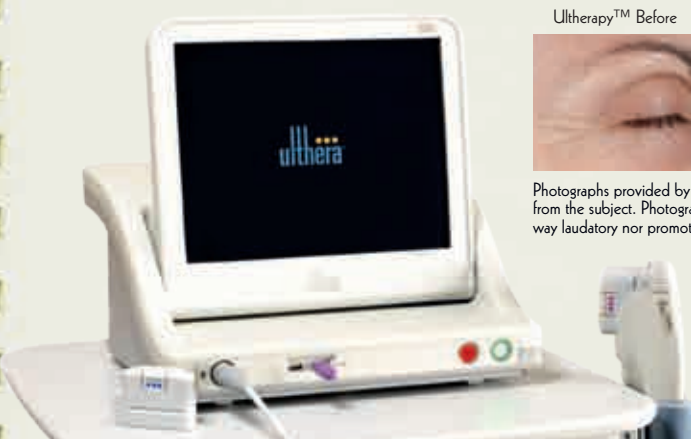

Recapture your youth and cheat time with the Ageless Beauty Program, a combination of Ultherapy™ and Rapture products by Dr Vanessa Phua. Ultherapy™ is an FDA-approved, non-invasive deep tissue lifting treatment, coupling simultaneous imaging of underlying tissue with focused ultrasound energy for skin tightening and deep tissue lifting. The focused ultrasound energy triggers the body's natural healing response, without harming the top layers of the skin, stimulating new and improved collagen production, which then results in the tightening and actual lifting of skin tissue over time.

Dr Vanessa Phua, a physician at Asia HealthPartners with a keen interest in Aesthetic medicine, has created Rapture, her signature brand of cosmeceuticals to work in synergy with Ultherapy™ for collagen renewal. The Ageless range of Rapture contains botanical stem cell nanoliposomes. These renew the basal cells of the epidermis and also trigger collagen production. This gives rise to firmer skin that looks more youthful and radiant. Products available in the Ageless range of Rapture include a Regenerative Serum for face, and a powerful Eye Elixir for brighter eyes.

READER EXCLUSIVE:

- Get the Ageless Range of Rapture for \$488, consisting of 1x Regenerative Serum (a la carte price \$280) and 1x Eye Elixir (a la carte price \$228) OR
- Enjoy the Ageless Beauty Program for \$5200, consisting of 1x Ultherapy™ Full Face (a la carte price \$6,000) and Ageless Range of Rapture (a la carte price \$508)

*Valid till May 29, 2010. Prices quoted are subject to 7% GST.

What kind of results can I expect with just one single treatment?
 With Ultherapy™, the delivery of focused ultrasound yields precise lifting and tightening with continued collagen turnover which peaks in 3 months. Most of my patients report firmer, tighter, and more youthful and vibrant looking skin within the first 2 weeks. Your results should last up to 18 months.

How is Rapture different from other cosmeceuticals?
 Rapture's Ageless range is at the forefront of cosmeceutical grade products. This technology involves nanoliposomes of botanical stem cells that trigger collagen production through the renewal of the basal cells in the epidermis.
